Control with bluetooth

KIND AND AMOUNT OF THE BACKREST LIGHTING

- Set including at least 2 stripes. Maximum strain of the control is 240W
- 3000mm of mains cable
- Light color WW or selectable RGB
- 500mm connecting cable

ELECTRICAL PARAMETER

RGB stripe:	24Volt/7,7W
WW stripe:	24Volt/4,28W
Dimensions of the stripes :	450mm long and 11mm wide

Installation:

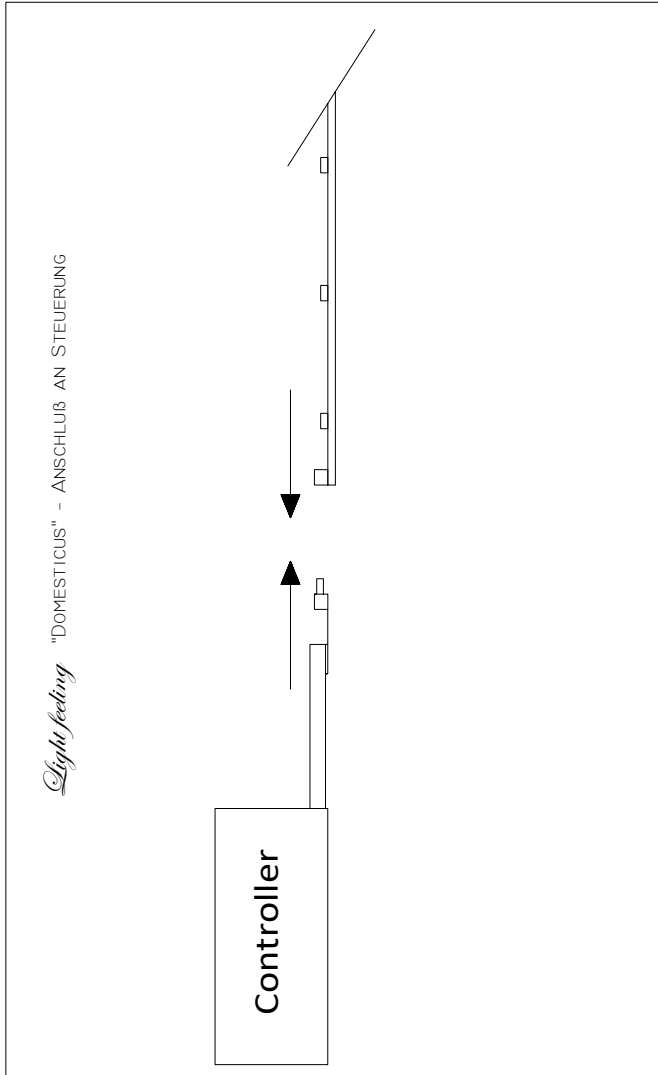

The *Light feeling*® Domesticus Set will be easily fixed at the back of the backrest with screws. The screws can be easily drilled through the prefabricated hole.

For a better holding of each stripe we would recommend you to use the retaining clips. Otherwise it could happen that the stripes remove themselves because of the extension by heat.
